[Instr Note] Search student name / net id from their initials

CS 527 on Piazza [no-reply@piazza.com]

Sent: Thursday, October 22, 2015 4:30 PM

To: [Xiao, He](#)

Instructor Mengqi Gu posted a new Note.

Search student name / net id from their initials

To protect students' privacy, we use initials in the presentation schedule page, which is accessible to public.

To figure out the student presenter's NetID, follow the steps:

Step 1: Locate the initials of the student presenter from the main page's corresponding paper entry such as "W.B." in "(presented by W.B.)"

Step 2. Search the initials, e.g., "W.B." in the project wiki page <https://wiki.cites.illinois.edu/wiki/display/cs527fa15/Projects> to find out the corresponding student's NetID. << We have added such initials of students on this page some time ago>>

[Click here](#) to view. Search or link to this question with @55.
